l Summary:

This is to report that home visits continue by the case worker to ensure Mason is safe, and thriving while in the care of his relatives.

S On June 30, 2026, a home visit made to the home and Clarita reported Mason is prepared and already
o enrolled with Mt. Turnbull School as a kindergarten. Mason has some meltdowns, aggressions and they
c have learned to educate themselves how to work with him on structure, guidance to help reduce some
i of his behaviors. Mason keeps appointments with pediatrician doctor at the Bylas Clinic for therapy once
or twice a month. Mason has a close bond with the family he lives with and he is doing well.

a On August 17, 2026, I made a visit to the home and delivered a back pack to Mason. I observed Mason
l and with a little time I spent with him in the home, Mason had a soft sponge basketball and he threw it
to me and I threw it back to him to see if he can catch the ball and if he is focused. During my visit,
Clarita reported that Mason is in Head Start at Bylas and the teacher reported that Mason is very hyper
and most of the time he doesn't sit in his seat. Mason has ADHD and takes medication and keeps
psychiatry appointments at the Bylas Clinic. Mason has been active and likes to play outside to release
S energy which helps him to be calmer before coming back inside the house. Also, during my visit, Mason
showed me his bedroom and shares it with another family member who have their own beds. Mason
e has a schedule when he goes to bed and he wakes up early. Mason has adapted well and likes outdoor
life, horses and family time.

r The case worker didn't see any concerns or issues with Mason.
