

"To develop and ex... ce quality services and promote self reliance
amongst families of the San Carlos Apache Tribe"

COURT UPDATE: CW-2021-0045

November 18, 2025

T In the Matter of

Aden Boone

DOB: 4/29/21

r Parents:

Angelina Hopkins

i Court Update:

b The child remains in a tribal member licensed foster home, residing in Mesa, AZ. The child is doing well; he is on an IEP with the school, continues to receive services for speech therapy at school, and will be
a evaluated for autism. He is also receiving services through Red Tail at Gila River Health Center. He has been diagnosed with ADHD and has been placed on medication. He has hyperactivity, aggression,
f emotional dysregulation, self-harm, and impulsivity, for which he is receiving therapy and medication at this time. Aden is very much attached to his foster family and is well cared for and loved, as they do all that they can to make sure he gets the help he needs to succeed.

S The mother has failed to complete the disposition order and has had another drug-exposed baby. The mother has not had any meaningful contact with the child or Social Services to make efforts for
O reunification. She has not seen her child since he was born; it has been four years, and not one inquiry.

c **Recommendation:**

i On behalf of the San Carlos Apache Social Service and in the best interest of the child, I recommend permanency for the child with the Natsyn family, and I am requesting that the Tribe file a petition for a
a termination hearing.

f Respectfully,

S Nyokia Goseyun, Foster Care Case Manager
